Executive Summary of 2006 Results

DSTP and DAPA Science and Social Studies, Grades 4 and 6

The results from the seventh administration of the grades 4 and 6 Science and Social Studies portions of the Delaware Student Testing Program (DSTP) are part of a long-term effort to gather data on our students' educational progress and to use the data to inform our decisions about instruction. Studied over time, the data will help identify trends and patterns that can be directly related to curriculum and instruction, giving districts and schools additional decision-making tools. Science and Social Studies data for grades 4 and 6 are summarized in this document. The data include summaries of test scores and participation. Science and social studies data for grades 8 and 11 are published in a separate document.

DSTP results are summarized at three levels: the state level, the district level and the school level. This executive summary contains the state level results. The two accompanying summaries are the district level results and the school level results. If a district or a school has fewer than 15 students in a given category (the Standards-Based Score N is less than 15), the number of students is reported, but the summary statistics associated with those students are not. Students are included in the Standards-Based Score N if their score is considered to be aggregable¹. In contrast, the Tested N includes all students, regardless of whether their scores are aggregable or non-aggregable. Therefore, the Standards-Based Score N will often not be equal to the Tested N.

The Science and Social Studies DSTP data are reported as Standards-Based Scores (SBSs) and Performance Levels (PLs). Data for the Delaware Alternate Portfolio Assessment (DAPA) are reported as performance levels only. The SBSs measure students' progress toward Delaware standards in each content area. The SBSs in science and social studies come from items developed in Delaware. They are reported on a scale that runs from approximately 100 to 500. PLs tell how students are performing relative to the state's content standards. Delaware has five performance levels as indicated on the following page.

The column %FRPL contains the percent of students eligible for free or reduced-priced lunch.

¹ See page 8 of this document or page 10 of the *Delaware Student Testing Program Guidelines for Inclusion of Students with Disabilities and Students With Limited English Proficiency* for a definition of aggregable and non-aggregable scores.

DSTP and DAPA Student Performance Levels

Students who took the DSTP receive a performance level in Science and Social Studies. Each DSTP performance level is based on the student's Standards-Based Score. Students who completed a DAPA portfolio receive a performance level in Science and Social Studies.

Level	Category	Description
5	Distinguished	Excellent performance
4	Exceeds the Standard	Very good performance
3	Meets the Standard	Good performance
2	Below the Standard	Needs improvement
1	Well Below the Standard	Needs significant improvement

Cut Scores for the DSTP and DAPA Assessments

The cut scores for DSTP Science appear in Table 2. The indicated numbers represent the lowest possible scale scores a student can earn and still be within the indicated performance level.

Grade	Below	Meets	Exceeds	Distinguished
4	286	300	325	336
6	285	300	325	335

Table 3 contains similar information for Social Studies. The indicated numbers represent the lowest possible scale scores a student can earn and still be within the indicated performance level.

Grade	Below	Meets	Exceeds	Distinguished
4	285	300	325	337
6	286	300	325	335

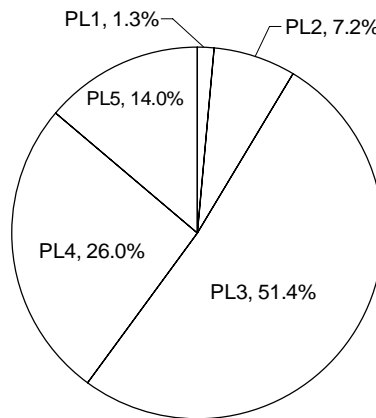

Table 4 contains raw scores a student earns on the DAPA portfolio within each indicated performance level. The same cuts are used for both Science and Social Studies and for grades 4 and 6.

Level	Performance Level	Score Range
5	Distinguished (excellent performance)	19, 20
4	Exceeds the standard (very good performance)	17, 18
3	Meets the standard (good performance)	15, 16
2	Below the standard (needs improvement)	11-14
1	Well below the standard (needs significant improvement)	4-10

Summary of Non-Aggregable Scores

Aggregable and non-aggregable scores are defined in the *Delaware Student Testing Program Guidelines for the Inclusion of Students with Disabilities and Students with Limited English Proficiency*:

“A **non-aggregable** score results when an accommodation changes the test construct (what the test is measuring) or modifies the test in such a way, that the score can no longer be directly compared to scores of students testing under standard conditions.” (page 10)

“An **aggregable** score results when a student takes the DSTP under standard conditions (without accommodations), or with an accommodation that does not change the test construct.” (page 10)

See the *Guidelines for Inclusion* for more information about non-aggregable and aggregable accommodations. The following two tables summarize, statewide, the scores of students with disabilities and limited English proficient students who took the DSTP with non-aggregable accommodations.

Participation Rates

A goal of the DSTP and DAPA is to have as many as possible of Delaware’s public school students at each test grade participate. To achieve this goal, participation

guidelines for students with disabilities and English Language Learner (ELL) students and procedures for granting special exemptions and invalidations have been established by the DOE.

DSTP

Eligible N. All students enrolled in a public school are required to take the DSTP unless they participate in the Delaware Alternate Portfolio Assessment (DAPA) or they were granted a Special Exemption. It is the sum of “Tested N” and “Not Tested N.”

Exempt N. Some students were granted a special exemption from the DSTP due to physical or mental conditions or reasons of an emergency nature, such as death of a family member, accident, hospitalization, etc. Special exemptions or invalidations were also granted for students who were unable to complete all or part of the test due to conditions beyond the student’s control that developed during the weeks of testing. These students are counted in the “Exempt N” column.

Tested N. “Tested N” is the number of students who took the DSTP. Invalidations may have resulted due to behavior caused by the student such as cheating, disruptive behavior, refusal to test, etc. This type of invalidation resulted in a performance level 1 for the content area(s) affected and the student is counted in the “Tested N” column.

Not Tested N. Students are counted in the “Not Tested” column if they are eligible to take the DSTP but are absent during the entire test week and the make-up week that follows.

% Tested. The percent tested is calculated by dividing “Tested N” by “Eligible N.”

% Not Tested. The percent not tested is calculated by dividing “Not Tested N” by “Eligible N.”

Table 9 – Science Participation

Grade	Eligible N	Exempt N	Tested N	Not Tested N	% Tested	% Not Tested
4	8,951	41	8,863	88	99.0	1.0
6	9,300	34	9,168	132	98.6	1.4

Grade	Eligible N	Exempt N	Tested N	Not Tested N	% Tested	% Not Tested
4	8,947	45	8,856	91	99.0	1.0
6	9,297	37	9,155	142	98.5	1.5

DAPA

Eligible N. A student is eligible to participate in the Delaware Alternate Portfolio Assessment (DAPA) if he/she meets the requirements in the *Guidelines for Inclusion* and the student's Individualized Education Program (IEP) calls for participation in the DAPA. If such a student is granted a Special Exemption, he/she is excluded from counts of eligible students. Eligible N is the sum of "Tested N" and "Not Tested N."

Exempt N. Some students were granted a special exemption from the DAPA due to physical or mental conditions or reasons of an emergency nature, such as death of a family member, accident, hospitalization, etc. Special exemptions were also granted for students who were unable to complete all or part of the portfolio due to conditions beyond the student's control that developed during the data collection period. These students are counted in the "Exempt N" column.

Tested N. "Tested N" is the number of students who participated in the DAPA. A portfolio may have been scored as "Incomplete" if it was missing a required component or at least one of the scoring rules was not satisfied. A score of "Incomplete" resulted in a performance level 1 for the content area(s) affected. Therefore, such a student is counted in the "Tested N" column.

Not Tested N. Students are counted in the "Not Tested" column if they are eligible to participate in the DAPA but no portfolio was submitted and the student was not granted a special exemption.

% Tested. The percent tested is calculated by dividing "Tested N" by "Eligible N."

% Not Tested. The percent not tested is calculated by dividing "Not Tested N" by "Eligible N."
